

Fashion Parade of Hats

My friends, a Fashion Show is incomplete,
Unless we feature hats of style and beauty.
We would not feel that we had done our duty
Unless we showed new models for home and street.
So, while our mannequins are on parade,
Give close attention to these hats we've made.

Models come out wearing hats as described, make hats as outrageous as possible.

First model enters.

Our husbands would approved these hats we know
In fact, a little BIRDIE told us so.

Second model enters.

A DUST PAN for a hat with a RIBBON on it
Will make most anyone a charming bonnet.

Third model enters.

In the garden down we sat
To make and trim a new spring hat.
Cabbage leaves and onion feather
Will stand both hot and humid weather.

Fourth model enters.

Our model turned a skillet into a French style, rare.
See how it brightens her face and gives class to her hair.
That hat is just the very thing for everyone to wear!

Fifth model enters.

A strand of rope and a powder puff, a basket upside down
Creates a style that will bring a smile to every man in town.

Sixth model enters wearing hat with veggies and flowers.

A man must be won by all of us, no use to worry, no need to fuss.
For women are ready to do their best, to win the man and be well dressed.
We used our keen imagination to make this hat a real creation.

Seventh model enters wearing outrageous hat (use your imagination!).

We went to the ice-box and searched the cellar.

We brought in things we had thrown away.

Look at this hat and tell us, pray,

Would a hat like this catch a gal a feller?

Simple and stylish, these hats show

All that a woman needs to know.

From the man on the street, near and far,

Come praises that show how cute they are.

I mean the hats – I don't mean the men,

For that would be something else again!

We hope you liked our Fashion Parade,

The most original we've every made.

It shows just what a woman can do

With something to work with, old or new.

And that's why we gave a HAT REVIEW!!
